Strengths

Java Full Stack Developer

- Hands on experience in developing Web Applications using **Spring Boot** and **ReactJs**.
- Proficient in creating **Single Page Web Application** using **ReactJs** and developing **Microservices** using **Spring Boot**.
- Practical understanding of **Core Java , Spring Framework , MongoDB , HTML5 , CSS3 , JavaScript , ReactJs , Git and GitHub**.
- **Learn and Be Curious:** Always Ready to learn and implement new technologies to upskill myself for the future endeavors.
- Looking forward to the challenging career opportunities where I can grow and apply my skills and knowledge for the growth and betterment of the organization.

Achievement

- Completed the BULT iTransform training in **Java Full Stack Development with ReactJs**.
- Completed Case study on **AWS Certification Portal** : AWS Certification Portal keeps track of all the user's AWS Certification related activities , such as enrolling for certification, giving assessment , getting vouchers , etc. The portal also generates an excel sheet based on user data stored on the database.
- **WeatherApp** : Developed dynamic weather forecasting webapp using 3rd party API..
- **Associate Innovator**
- **AWS Cloud Practitioner**
